

# **2008 Clinical AAC Research Conference**

## **CAAC**

***The Conference Presentations***

**September 25 – 27, 2008**

**University of Virginia  
Charlottesville, VA**

**[www.aac institute.org/CAAC](http://www.aac institute.org/CAAC)**

## **The Clinical AAC (CAAC) Research Conference**

The Clinical AAC (CAAC) Research Conference is an annual forum created specifically for clinicians and researchers engaged in the study and clinical management of people who use augmentative and alternative communication. The ultimate end goal of CAAC is to guide future AAC research in ways that will optimize the life experience of people who use AAC. CAAC offers keynote, platform, and poster presentations by AAC researchers. Presentations are based on clinical research that contributes to the communication performance of people who use AAC. All participants present their original research and engage in comprehensive discussions with colleagues. To encourage a program conducive to the exchange of ideas, attendance is limited. Those wishing to attend must submit a summary of an original paper or poster. For additional information, visit [www.aacoinstitute.org/CAAC](http://www.aacoinstitute.org/CAAC).

# 2008 Clinical AAC Research Conference

September 25 -27, 2008

University of Virginia  
Charlottesville, VA

## Conference Chair

**Filip Loncke**  
University of Virginia

## Program Chair

**D. Jeffery Higginbotham**  
University at Buffalo

## Steering Committee

**Ann Beck** (Illinois State University), **Gilson Capilouto** (University of Kentucky), **Katya Hill** (University of Pittsburgh), **Rajinder Koul** (Texas Tech University), **Lyle Lloyd** (Purdue University)

## Reviewers

Gilson Capilouto, Kathleen Garrett, Rajinder Koul, Filip Loncke, John McCarthy, Pamela Mathy, Rupal Patel, Bruce Wisenburn

# Table of Contents

Keynote Address -- Christine Dollaghan

*Evidence for theory and practice: It takes all kinds*

Sponsor: Communication Disorders Program University of Virginia

Others appear in alphabetical order by first author.

John Bonvillian, Tracy Dooley, Heather Emmons, Allison Jack, Nicole Kissane, and Filip Loncke

*The Development of a Simplified Manual Sign Communication System for Special Populations*

Carrie Bruce

*Critically Analyzing Workplace Discourse to Inform AAC Device Design*

Tara Canty, Filip Loncke, Karla Wilburn, Dorothee Crato, Julia Goldkamp

*The role of phonology in word learning through a speech-generating communication device.*

Ming Chung Chen and Katya Hill

*Redesign of a Keyboard Layout to Enhance the Proficiency of Text-entry for Single Digit Mandarin Chinese Users*

Jennifer Cornish and Jeffery Higginbotham

*Effect of Task Type on Grounded Contributions & Multimodality on Augmented Interactions*

Elizabeth Hanson, Mallory Trap, and Timothy Ferber

*Telephone Talk: Effect of the first message on telephone conversations using synthesized speech*

Laura Heilman, Malcolm R. McNeil, Katya Hill and Sheila R. Pratt

*An Examination of the Effects of Mode of Access on the Computerized Revised Token Test*

Monica S. Hough and Rachel K. Johnson  
*Use of AAC to Enhance Communication in an Adult with Chronic Severe Aphasia*

Mick Isaacson and Lyle Lloyd  
*Efficacy of the Generation Effect for Promoting Learning of the Relationship of Graphic Symbols and Referents: An Initial Report*

Mick Isaacson, Saranya Srinivasan, & Lyle Lloyd  
*Cognitive Issues and Computer Applications for AAC Symbol-Referent Learning and Retention*

Allison Jack, Katie Liskey, John Bonvillian, and Herbert Richards  
*Gestural Imitation and Hand Preference in Children with Autism*

Fei Luo and Jeffery Higginbotham  
*Personal Narrative Telling of AAC Users with ALS*

Yvonne Lynch and Martine Smith  
*When you have lemons make lemonade – an exploration of the challenges and opportunities inherent in carrying out research in a clinical setting.*

Vanessa Mayer, Barbara Braddock, Filip Loncke, and Stephanie Borg  
*Trained Modality use in Adults with Expressive Aphasia*

Linda Meyer and Filip Loncke  
*Factors Contributing to Success or Failure in Vocational Evaluation by Users of Augmentative and Alternative Communication Devices*

Patricia Politano  
*Beyond Unicorns: In Search of Social and Strategic Competence*

Richard Steele  
*Changes in Chronic Global Aphasia at Impairment and Functional Communication Levels following SGD Practice and Use*

Judith Stoep, Hans Van Balkom, Margje van der Schuit  
*Language, communication, and emergent literacy: a matter of opportunities*
