

**Halloween Game**  
**Robin Hurd**  
**parents@aacinstitute.org**

**To play:** each player takes a card at his turn. He looks at the card, and uses it to complete the target sentence. The player next to him responds either “ I do hear...” or I don’t hear...”. Depending on the skill of the player on his AAC system, he can say the target sentence on his device and simply show the card to the other players, or say the whole sentence.

 A creaky door	 A haunted house	 A scary ghost	 A black cat
 A witch	 A pumpkin	 Halloween treats	 A dark night
