

ICAN™ Talk Clinics of the

Meeting the growing needs of children with complex communication difficulties.

We specialize in providing services to individuals who use Augmentative and Alternative Communication (AAC) systems.

Our trained speech-language pathologists provide clinical services, training and support to children and their families.

Our patients include children with a range of disabilities. They include, but are not limited to:

- Angelman's Syndrome
- Autism
- Cerebral Palsy
- Developmental Disabilities
- Fragile X Syndrome
- Pervasive Developmental Disorders
- Progressive, degenerative disorders
- Stroke/Aphasia
- Traumatic Brain Injury

AAC Institute is a worldwide resource for:

- People with severe communication disorders or who cannot speak, their families and friends
- Professionals and Educators
- Researchers and Developers

What We Do

ICAN™ Talk clinicians provide innovative, comprehensive, family and community-based services to meet the complex communication needs of individuals across the life span.

Services include:

- Speech-Language Evaluations
- Comprehensive AAC & Computer Access Evaluations
- Performance & Outcome Measurements
- Individual Treatment
- Group Treatment
- Speech Generating Device Funding Reports & Appeals (USA only)
- Trainings, Workshops & Webinars
- Advocacy
- Community Consultations
- Home Visits
- Family & Caregiver Support
- Tele-rehabilitation Services

Language Activity Monitoring (LAM) tools are routinely used by clinicians at the *ICAN™ Talk Clinics* to support your treatment. LAM tools allow users and families to track progress and success!

Read more about LAM at our Web site, www.aac institute.org.
